/ ALL ABOUT ME

I started my career journey in marketing with the mindset of learning and trying new things. I then spent a couple of years within the advertising industry, during which I became exposed to graphic design and upskilled mostly in that area. Through creating websites, I realized my passion lay in learning the technical skills of programming especially front-end design and development. I am able to work efficiently within and outside of a team and possess good leadership skills.

/ TECHNICAL SKILLS

- React.js & React Native
- Next.js & Gatsby
- Typescript
- Javascript
- Angular.js
- Vue.js
- Maintaining APIs (GraphQL & Restfull APIs)
- Node.js
- Git
- Redux & easy-peasy
- Jest & jasmine & Chai Testing tools

/ WORK EXPERIENCE
